

LIFT 2 GO

Introducing The Lift2Go

The Lift2Go is a revolutionary new device that instantly provides temporary wheelchair access to locations up to 1.5 m (60 in) high. Its pioneering ultra-portable design allows a single operator to transport and install it with no modifications to the site - eliminating the time and costs of alternative approaches. It can be set up in minutes and carries up to 340 kg (750 lb), making it perfect as a visitor-access solution. The Lift2Go is all-weather indoor/outdoor rated so it can be used anywhere for lifting-as-a-service, short-term access, or semi-permanent deployment. *Lift2Go: for access anywhere you want to go!*

Features

- One-person transport & deployment
- Fits into most minivans/SUVs
- Sets up in minutes
- High-reliability manual operation
- No external power required
- No tools required
- Attendant operated
- Easy to use, ergonomic controls
